### **DETAILED ACTION**

The amendment filed on 29 June 2006 has been entered.

After further consideration, the allowability of claims 26-41 has been withdrawn.

### ***Specification***

1. The disclosure is objected to because of the following informalities: Please add cross-reference to copending Application 11/495,274.

Appropriate correction is required.

### ***Reissue Applications***

2. Claims 26-41 are rejected under 35 U.S.C. 251 as being improperly broadened in a reissue application made and sworn to by the assignee and not the patentee. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

Please refer to the patent US 5,793,793 where the amount of Rh was amended to overcome the prior art.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 2879

Claims 26-41 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Regarding independent claims 26 and 27, it is not clear what the Applicant intends as the optimum range of Rh. Is it 7-10 wt% or 10-25 wt%?

Regarding claims 35 and 37, the range amount of Rh claimed is outside of the range of that of independent claim 27. It is not clear to the Examiner which range is intended.

Regarding claims 38 and 40, the range amount of Rh claimed is outside of the range of that of independent claim 27. It is not clear to the Examiner which range is intended.
